

**DfE funded
Leadership Development Programme
for Teachers 2019/2020:**

‘A springboard to middle and senior leadership’

The Birmingham Nursery Schools TSA, working in conjunction with the Centre for Research in Early Childhood (CREC), is offering a leadership development programme for ambitious teachers who wish to develop their leadership skills and confidence in order to gain promotion.

The programme aims to provide participants with a variety of tools, theories, knowledge, skills and confidence. The facilitated approach will encourage participant involvement and will aim to embed new ideas through promoting experiential and reflective learning.

Although leadership of practice excellence is central, there will also be a strong focus on developing participant confidence in order that they have the personal capacity and capability, to become the next generation of leaders.

This is an ideal short course for those who are looking to gain a TLR or promotion or might be considering embarking on NPQML or NPQSL in the near future.

Course fees are subsidised and are offered at £850 per person. There are also 10 **fully funded** places for teachers who identify as **BME and/or male** as part of a DfE initiative to develop and diversify the leadership profile across the sector to better reflect the local and national context.

The course is led by Professor Chris Pascal, and supported by senior leaders from a variety of Birmingham schools.
